## Year 2 - Forest School

Year 2 were thinking about habitats in this week's Forest School session. After a warmup game of stuck-in-the-mud, we talked about the habitats and micro habitats that are in our forest school area and learnt about the types of invertebrates (insects) we might find. We had a wonderful time hunting for mini beasts and spotted lots of ants, beetles and spiders as well as evidence of insect life in old branches.

We then 'upgraded' our school bug hotel by filling cardboard tubes with sticks, cones, leaves and other natural things we found and choosing which 'floor' to place the new cosy habitats. Our final activity of our busy session was to make our own minibeasts using clay and we were very impressed with the children's very creative ideas.

## Wildlife Club

The children have been busy finding out about the different bees that visit our gardens. We used ID sheets to try to identify the few bees that we found buzzing around the school grounds. The children then made their own bee-friendly seed mix from an assortment of provided seeds, before having fun decorating their seed packets.

Just last week, the club members created journey sticks by collecting natural treasures, which they then tied onto a found stick using colourful wool. Some of the children decided they had made a powerful wand, which they were hoping to put to good use!
