## **Statement of Intent**

The purpose of this plan is to demonstrate how Keystone Academy Trust intends, over time, to increase the accessibility of our schools for disabled pupils and stakeholders. It is our intention to ensure that all children receive a high-quality and ambitious education regardless of need or disability. We believe that it is vital that our pupils are provided with opportunities which will allow them to achieve, succeed and become confident, independent individuals as they progress through life.

## Legal Requirements

This plan has been written with due regard to the following guidance and legislation:

- Supporting pupils at school with medical conditions: Statutory guidance for governing bodies
  of maintained schools and proprietors of academies in England, Department for Education
  (DfE) September 2014
- 0-25 SEND Code of Practice 2015
- Children and Families Act 2014
- Equality Act 2010
- Mental Health and behaviour in schools: departmental advice for school staff DfE June 2014
- Schools Admissions Code DfE 1 Feb 2010
- The Data Protection Act 2018
- Ensuring a good education for children who cannot attend school because of health needs; DfE 2013
- Working Together to Safeguard Children (2018)
- The Special Educational Needs and Disability Regulations (2014)

#### Links to other school policies

- Supporting pupils with medical conditions
- Children with health needs who cannot attend school
- Attendance policy
- Child protection and safeguarding policy
- Special educational needs and disabilities (SEND) policy
- Equality, Equity, Diversity and Inclusion policy
- Mental health and well-being policy
- Health and safety policy

#### Introduction

On 1 October 2010, the Equality Act 2010 replaced all existing equality legislation such as the Race Relations Act, Disability Discrimination Act and Sex Discrimination Act. It consolidated this legislation and made it unlawful for a school to discriminate against a pupil or prospective pupil by treating them less favourably because of their disability (amongst other protected characteristics).

The law on disability discrimination is different from the rest of the Act in a number of ways because it protects people who are disabled but does not protect people who are not disabled. This means that schools are allowed to treat disabled pupils more favourably than non-disabled pupils, and in some cases are required to do so, by making reasonable adjustments to put them on a more level footing with pupils without disabilities. The definition of what constitutes discrimination is more complex. Provision for disabled pupils is closely connected with the systems in place to support pupils with special educational needs.

#### **Definition of Disability**

The Equality Act 2010 defines disability as when a person has a 'physical or mental impairment which has a substantial and long-term adverse effect on that person's ability to carry out normal day-to-day activities.' Some specified medical conditions such as HIV, multiple sclerosis and cancer are all considered as disabilities, regardless of their effect. Long term is defined as lasting, or likely to last, for at least 12 months.

## Schools' duties around accessibility for disabled pupils

Schools need to carry out accessibility planning for disabled pupils. These are the same duties as previously existed under the Disability Discrimination Act and have been replicated in the Equality Act 2010.

This plan sets out our proposals to increase access to education for disabled pupils in the three areas required, by the planning duties in the Equality Act 2010:

- Increasing the extent to which disabled pupils can participate in the school curriculum, which
  includes teaching and learning and the wider curriculum of the school, such as participation
  in after school clubs, leisure and cultural activities or school visits;
- Improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services, which includes improvements to the physical environment of the school and physical aids to access education;

• Improving the delivery to disabled pupils of information, which is provided in writing for pupils who are not disabled e.g. handouts, timetables, textbooks and information about school events. The information should take account of the pupils' disabilities and the preferred format of pupils and parents and be made available within a reasonable timeframe.

We will ensure that our Accessibility Plan is resourced, implemented, reviewed and revised as necessary, but at least every three years.

#### **Policy Implementation**

The overall responsibility for the implementation of this plan at Thurlby Community Primary Academy is given to Ellie Smitheringale, SENCo.

At Thurlby Community Primary Academy, Ellie Smitheringale, SENCo, will be responsible in conjunction with senior leaders disabled pupils, their families and any relevant outside agencies, for drawing up, implementing and keeping this plan under review.

#### Working in collaboration with our school communities

Keystone Academy Trust aims to treat all stakeholders, including pupils, prospective pupils, staff, governors and other members of the school community favourably and, wherever possible, takes reasonable steps to avoid placing anyone at a substantial disadvantage. We aim to work closely with disabled pupils, their families and any relevant outside agencies in order to remove or minimise any potential barriers to learning, which puts them at a disadvantage, but allows them to learn, achieve and participate fully in school life. Keystone Academy Trust is active in promoting positive attitudes to any disabled people in our schools and their communities, and in planning to increase access to education for all disabled pupils.

As part of our continued communication with pupils, parents, carers and other stakeholders, Keystone Academy Trust will continually look at ways to improve accessibility through data collection, questionnaires and parental discussions.

## **Current range of disabilities within Keystone Academy Trust**

Keystone Academy Trust is fully inclusive and always has a population of pupils with a range of Special Educational Needs and/or disabilities. It is not unusual for our schools to be meeting the following needs:

- Autism Spectrum Disorder (ASD)
- Attention Deficit Hyperactivity Disorder (ADHD)

- Attachment Disorder
- Dyslexia
- Hearing impairments
- Visual impairments
- Global Developmental Delay
- Various medical conditions including Diabetes, Epilepsy, Asthma
- A range of learning difficulties

#### Increasing access for disabled pupils

Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all pupils. As such we have a regular cycle of training provided by professionals from outside agencies to ensure that our ability to meet the needs of our diverse community is kept up to date. We have very close relationships with outside agencies and will actively seek advice from them to ensure that we can meet every pupil's needs through reasonable adjustments and specialised resources. We aim to meet every pupil's needs within mixed ability, inclusive classes wherever possible.

It is a core value of Keystone Academy Trust that all pupils are enabled to participate fully in the broader life of their school. Consequently, all pupils attend age relevant after school clubs, leisure and cultural activities and educational visits.

## **Contextual Information**

At Thurlby Community Primary Academy the majority of our school site and building is accessible for anyone who has a disability since it is a single storey building. All doorways are wide enough for wheelchair access. Our car park is close to the main school building for any of our stakeholders who may have walking difficulties. We also have a disabled toilet in the front part of the school and which can once again be accessed by all stakeholders.

We are an actively inclusive school and will always make reasonable adjustments for any visitors who may have a disability for which we were unaware.

## Complaints

Should parents/carers be unhappy with any aspect of their child's care, then they must discuss their concerns with the school. This will be with the child's class teacher in the first instance, with whom any issues should be addressed. If this does not resolve the problem or allay the concern, the problem should be brought to the attention of Ellie Smitheringale, SENCo or a member of the senior leadership team, who will, where necessary, bring concerns to the attention of the head teacher.

If the situation remains unresolved, then a letter outlining the concern should be sent formally to the Clerk to the Governors at the school address in line with the Trust's Concerns and Complaints Policy.
